Contents of Volume 13

No. 1, April 1991

Occurrence of tetracycline-resistant determinant classes among Enterobacteriaceae isolated from meat
A. H. G. P. Jayaratne, D. L. Collins-Thompson and J. T. Trevors (Canada) 1
Detection of a staphylococcal endo-β-*N*-acetylglucosaminidase using polyacrylamide gels
M. Sugai, H. Komatsuzawa, S. Tomita, T. Akiyama, Y. Miyake and H. Suginaka (Japan) 11
Rapid permanganate-fixation and alcohol-dehydration of fungal specimens for transmission electron microscopy
W. N. Arnold (USA) 17
BASIC computer program for the graphic representation of microbial growth curves and batch fermentations
M. Veiga and F. Gutiérrez (Spain) 23
Development of a microcolumn radiometric assay for bacterial adherence
W. K. Seow and Y. H. Thong (Australia) 39
Use of a restriction-defective variant for the constriction of stable attenuated strains of the marine fish pathogen *Vibrio anguillarum*
J. T. Singer, W. Choe and K. A. Schmidt (USA) 49
Carrageenan is a desirable substitute for agar in media growing *Trichomonas vaginalis*
B. J. Bromke and M. Furiga (USA) 61
Rapid differentiation of archaebacteria from eubacteria by diffuse reflectance Fourier-transform IR spectroscopic analysis of lipid preparations
D. B. Hendrick, D. E. Nivens, C. Stafford and D. C. White (USA) 67
X-α-Gal-based medium for simultaneous enumeration of bifidobacteria and lactic acid bateria in milk
P. Chevalier, D. Roy and L. Savoie (Canada) 75
Announcement 85

No. 2, June 1991

Acridine orange staining reaction as an index of physiological activity in *Escherichia coli*
G. A. McFeters, A. Singh, S. Byun, P. R. Callis and S. Williams (USA) 87
Extraction and characterization of mRNA from mycobacteria: implication for virulence gene identification
B. K. R. Patel, D. K. Banerjee and P. D. Butcher (UK) 99
A highly efficient and universal solid medium for growing mesophilic and moderately thermophilic, iron-oxidizing, acidophilic bacteria
D. B. Johnson and S. McGinness (UK) 113
Comparison of polyclonal antisera and anti-43kDa antigen monoclonal antibodies for the culture-amplified antigenic detection of *Mycoplasma pneumoniae* by immunoblotting
N. Cimolai and D. Mah (Canada) 123
Fluorescent microparticles as a rapid tool in bacterial adherence studies
B. Westerlund (Finland) 135
Detection of bacteriocins produced by lactic acid bacteria
C. B. Lewus and T. J. Montville (USA) 145
Comparison of four methods for measuring chitinase activity and the application of the 4-MUF assay in aquatic environments
M. A. Hood (USA) 151

Metal chelate affinity chromatography for the purification of the F_{420}-reducing (Ni,Fe) hydrogenase of *Methanospirillum hungatei*
C. G. Choquet and G. D. Sprott (Canada) 161

No. 3, July 1991

A comparison of methods for determining rates of acetylene reduction (nitrogen fixation) by heterotrophic bacteria in seagrass sediment
M. J. O'Donohue, D. J. W. Moriarty and I. C. MacRae (Australia) 171
Characterization of protein G expressed by human group C and G streptococci
R. A. Otten and D. P. Boyle (USA) 185
The API ZYM system as a tool for typing of *Pasteurella multocoida* strains from humans
M. Grehn, F. Müller and R. Hugelshofer (Switzerland 201
Detection of faecal pollution in water by an *Escherichia coli uidA* gene probe
D. H. Green, G. D. Lewis, S. Rodtong and M. W. Loutit (New Zealand) 207
Genetic transformation of *Pseudomonas cepacia* using electroporation
J. L. Burns and L. A. Hedin (USA) 215
The use of a two-liquid-phase electron removal system for culture of proton-reducing bacteria
F. P. Houwen, M. Rebers, G. E. Folkers, A. J. M. Stams and A. J. B. Zehnder (The Netherlands) 223
Improved method for phenotypical characterization of marine bacteria
G. H. Hansen and R. Sorheim (Norway) 231

No. 4, August 1991

Similarity between biotransformation rates and turnover rates of organic matter biodegradation in anaerobic environments
T. J. Phelps (USA) 243
A simple procedure for enriching and cultivating magnetic bacteria in low agar-mud medium
V. W. Adamkiewicz, A. Authier, S. Dumont, S. Garzon, S. Leduc, D. Morency, N. Nakhostin and H. Strykowski (Canada) 255
Characterization and determination of prehelminthosporol, a toxin from the plant pathogenic fungus *Bipolaris sorokiniana*, using liquid chromatography/mass spectrometry
H. Carlson, P. Nilsson, H.-B. Jansson and G. Odham (Sweden) 259
A drop-collapsing test for screening surfactant-producing microorganisms
D. K. Jain, D. L. Collins-Thompson, H. Lee and J. T. Trevors (Canada) 271
Measurement of antibody binding to intact bacteria using flow cytometric techniques
M. A. Dietrich, R. E. Truax, D. D. French, D. F. Lea, M. J. Stear and M. J. Newman (USA) 281
An autoradiographic technique for selecting Cs-137-sorbing microorganisms from soil
E. E. Johnson, A. G. O'Donnell and P. Ineson (UK) 293
Protoplast transformation of *Staphylococcus epidermidis*
L. Grüter and R. Laufs (FRG) 299
An enzyme-linked immunosorbent assay for the detection of soluble *Klebsiella pneumoniae* capsular polysaccharide
M. Trautmann, A. Ghandchi, T. Held, S. J. Cryz, Jr. and A. S. Cross (FRG, Switzerland, USA) 305
